Importance: High

Hi Mr. Sanchez,

Can you confirm that you received all documentation for the **Max Caddy/Heatpro** and the **Caddy/Heatmax II/Tundra II** ?

I just want to make that clear before I send you documentation for another project.

Best regard,

Guillaume Thibodeau-Fortin, Ing./Eng.

Hi Mr. Sanchez,

When you click on the link below, you will access to all documentation regarding the certification of the

Caddy/Heatmax II/Tundra II.

Then click on the arrow to download the documents (upper right corner):

Caddy B415.1.zip 7 éléments

2017-02-09 - Caddy COC.pdf

2017-02-16 - Caddy B415.1-16 - Emission test report.pdf

Application for US EPA - Caddy Heatmax II & Tundra II.pdf

CADDY NON-CBI.pdf

DPF01001 - Quality control.pdf

DPF02001 - Quality control.pdf

PF01015 - Quality control.pdf

Also, as mentioned by Marc-Antoine, Vincent did send you an email the 24th of May 2016 regarding this unit. The proof of that is in attachment.

Can you confirm that you have everything to proceed ? We will be waiting for the Compliance Letter.

Thank you very much and have a great day,

Guillaume Thibodeau-Fortin, Ing./Eng.

Objet : Summary of our call

Importance : Haute

Hello Rafael,

Thanks for taking our call today.

Below is a summary of the situation.

We have two products waiting for a certificate of compliance from the Agency:

- 1- Caddy / Heatmax II / Tundra II
- 2- Max Caddy / Heatpro

Regarding the first Series (Caddy / Heatmax II / Tundra II)

Our records show that you have received a full package from Vincent about 6 months ago. We will resend all the information to make sure you have everything on hand, including the certificate of conformity that had been sent separately by Guillaume on February 9th at 11h58AM.

Regarding the second Series (Max Caddy / Heatpro)

You have the full package on hand, including the independent test report from Intertek confirming testing to CSAB415.1-10 (this is the method referenced in the NSPS). You can see the summary results on the 3rd page of the report (screenshot attached). You have also received the certificate of conformity in a separate e-mail from Guillaume on February 9th at 11h58AM. So with regards to this Series, we will be re-sending anything.

I hope this clarifies the situation. Guillaume will do the follow-up with you. We are still within the deadline for May 2017, but it is getting tight. We really appreciate your collaboration on this. Guillaume will follow-up with you on a regular basis. This is not to be annoying, but to make sure things are on track and that you have everything you need.

With best regards,

Marc-Antoine Cantin
President
